

# Plain Hunt Minimus

---

The complete course of Plain Hunt Minimus is as follows:

The line shows the path of the treble as it hunts out to the back, lies two blows at the back, hunts in to the front and leads full. Where the line is red you must hold up each stroke so that you ring more slowly than in rounds. Where the line is purple you must ring at the same speed as in rounds. Where the line is green you must pull each stroke early so that you ring quicker than in rounds.

The table below shows the sequence each bell follows using the same colour code as above:

If you are ringing	start in rounds and then follow							
Treble	2	4	3	2	4	3	Lead	Lead
2	Lead	Lead	4	3	1	4	3	1
3	4	1	2	4	Lead	Lead	1	2
4	1	2	Lead	Lead	3	1	2	3
